SUBJECT: Cost Allocation for Supplies, Materials, and Services on Support Service Contracts		

1. POLICY

This directive establishes the policy for the cost allocation of supplies, materials, and services on support service contracts. NASA contractors that utilize and/or provide supplies, materials, and services shall identify all appropriate costs to the customer's Stennis Work Request (SWR) to enable accurate customer cost charging. At the time of use, each contractor shall fully document all such resources against the SWR for which they were utilized. Consumption of bulk supplies and materials by a contractor shall be recorded to the level that is material from an accounting perspective and is practical with respect to the ability to measure using normal industry standards. The cost allocation of supplies, materials, and services to the utilizing SWR shall be accomplished within 30 days of consumption and/or performance.

2. APPLICABILITY

This policy directive is applicable to all work performed by support contractors at Stennis Space Center (SSC).
